Gossmann & Cie. is a Liability Management Company that provides holistic and data-intuitive solutions for the management of insurance risk-related liabilities. We support financial institutions including insurers, intermediaries, banks and institutional investors by structuring, managing and assuming risks and/or entities with the aims of refining their portfolios and of optimising their capital base. Our strong partnerships enable us to offer balance sheet resilience and execution on a highly flexible digital platform. Our foundation is a growing team of senior experts, deep (re)structuring and underwriting know-how, a wide network and strong performance discipline. In line with our vision to become a premier Liability Management Company we are aiming to invite a

Financial Analyst (m/f/d)

to join our international team and share our founding principles of innovation, entrepreneurship and trusted partnerships so as to consistently support the growth of our company.

Role Overview

The Financial Analyst is primarily responsible for the analysis of financial data and the creation of financial models within the framework of transactions and acquisitions or new business development. The scope encompasses the technical application of financial modelling into business operations and the strategic use of market and financial data to enable the development of customised solutions for our clients.

This position calls for a competent, technically confident, efficient and reliable person with some work experience in the areas of due diligence for M&As and transactions. Entrepreneurial thinking and acting is a must-have, as is the ability to work independently.

The position entails working in a sophisticated and dynamic environment with a diverse team, at cross-functional level. The role reports to the Head of Portfolio Management as well as the Head of Markets, Partnerships and Strategic Initiatives.

Key Responsibilities/Tasks

- Creation and further development of valuation models
- Development and implementation of transaction structures
- Preparation of project-related or market-related collaterals (presentations, reports, etc)
- Support in due diligence processes and preparation of relevant reports
- Support in reporting to internal decision-making bodies
- Project management and client service support
- Support in the continued dynamic growth of new business areas

Candidate's Profile

- Higher education, preferably in banking and/or finance, combined with at least two to three years of experience in a similar role preferably with an advisory element.
- Experience in insurance and reinsurance market will be considered an advantage
- Experience in project management
- Skilled at preparing presentations for clients
- Fluency in English, proficiency in MS Office, willingness to travel
- Analytical and strategic thinking and acting

You will find further information about our company on our homepage. We look forward to receiving your application including cover letter, CV and a copy of all your references along with your salary expectations and earliest starting date. Please email your application to onboarding@gossmann-cie.com.
